

Searching for Bibliographic Resources

The screenshot shows the IRCI Research Database search interface. The page title is "Bibliographic Resources" with a "View manual" link. The search area is divided into several sections:

- 1** Search with keyword: A text input field with the placeholder "Enter keyword".
- 2** Location: A dropdown menu currently set to "Not specified".
- 3** Search by field: A section with three dropdown menus: "Data Collection Project" (set to "Not specified"), "ICH Genre" (set to "Not specified"), and "Relevance to ICH Safeguarding" (set to "Not specified"). Below these is another search field with a dropdown set to "All fields", a "contains" operator dropdown, and a text input field with the placeholder "Enter keyword". A "+Add new value" button is also present.
- 4** Search: A teal button with a magnifying glass icon and the text "Search".

Below the search area, there is a "Template" dropdown set to "Bibliographic Resources", a pagination indicator showing "1 of 159" and "1-25 of 3952", and a results table with columns for Author(s), Title, Language, Location, Date of Publication, and Publication Type.

Author(s)	Title	Language	Location	Date of Publication	Publication Type
Niles, Don	'Never Seen It Before': The Earliest Reports and Resulting Confusion about the Hagen Courting Dance	eng	Papua New Guinea	2017	Book section/Chapter
Author(s)	Title	Language	Location	Date of Publication	Publication Type

① Enter Keywords

As you type in the search box, keyword suggestions will automatically appear on the dropdown menu.

- **Multiple Keywords (OR Search):** You can enter several words separated by a space. This finds items that contain **any** of your keywords. For example, temple festival will find results with "temple" OR "festival".
- **Exact Phrases:** To search for a specific phrase, enclose it in double quotes. For example, "intangible cultural heritage".

② Filter Your Results

Use filters to narrow down your research results.

- **Location:** Filter by publication location.
- **Data Collection Project:** Filter by the name of the data collection project.
- **ICH Genre:** Filter by the specific category of intangible cultural heritage.
- **ICH Safeguarding:** Filter by the item's relationship to the Convention for the Safeguarding of the Intangible Cultural Heritage.

③ Use the Advanced Search

For more complex searches, you can add multiple search fields and set specific conditions for each one.

④ Get Your Results

When you are ready, click the **Search** button to see the results based on the keywords and filters you have set.
